## >PRODUCT DESCRIPTION

### Solid Flooring Mixed Grain Douglas Fir

The grain variation and character of our Mixed Grain Douglas Fir Flooring (*Pseudotsuga menziesii*) makes this our most popular flooring grade. In lengths up to 14', we often mill this as wide-plank flooring. Large slabs show off the wood's rich old-growth nature and rustic last-life character. Choose a rough-sawn surface or smooth-sawn. Call today for a flooring sample.

## >SOURCE

Heavy timber and lumber from dismantled warehouses, factories, etc. across North America. All original trees were true old-growth, harvested from the Pacific Northwest in the early 20th century. Grown, sawn, built, deconstructed & remilled in America.

## >COLOR TONES

Rose, blush, pink and honey tones for a richly varied surface under foot

## >GRAIN PATTERN

Mixed grain floors will have some flat sawn and some vertical sawn boards. Some individual boards will contain both grain orientations.

## >CHARACTER

Small to medium sized knots, tight and mostly checked. Expect nail holes, nail stains, and other signs of this old wood's previous life.

## >DIMENSIONS

Custom milled to your order, from 4" - 8" standard widths; up to 10" planks; random lengths from 4 - 14'; in tongue & groove, square-edged with relieved back (except for planks). Standard thickness is 13/16"; others available on request.

## >PRICING

From \$5.25 per sqft [Call or fax for a quote]

## >LEAD TIME

Approximately 3 weeks; more is always appreciated

## >INSTALLATION

For all flooring, we always suggest you order a minimum 5% extra allowance and schedule delivery to the site at least two weeks prior to laying the floor. Flooring should be laid as per install guidelines of the National Wood Flooring Manufacturers Association (NOFMA).
