Solid Flooring Vertical Grain Heart Pine

>PRODUCT DESCRIPTION

If we can use the word 'psychadelic' in the 21st century, the grain of our Vertical Grain Reclaimed Heart Pine Flooring is it. Bold contrasts in the alternating tones of sapwood and heartwood make it a dynamic choice. This is an incredibly dense, durable wood. Heart pine is also known as Southern yellow pine (*Pinus spp*). Call today for a flooring sample.

>SOURCE

Heavy timber and lumber from dismantled warehouses, factories, etc. found mostly east of the Mississippi. All original trees were true old-growth, harvested from the South in the early 20th century. Grown, sawn, built, deconstructed & remilled in America.

>COLOR TONES

Honey tones contrast with blonde and maple syrup colors.

>GRAIN PATTERN

Vertical, tight grain

>CHARACTER

Infrequent small knots and minimal light surface-checking; few nail holes or stains, allowing other signs of previous life.

>DIMENSIONS

Custom milled to your order, from 3" widths and under; random lengths from 4' - 14'; in tongue & groove, square-edged with relieved back. Standard thickness is 13/16"; others available on request.

>PRICING

From \$9.50 per sqft [Call or fax for a quote]

>LEAD TIME

Approximately 3 weeks; more is always appreciated

>INSTALLATION

For all flooring, we suggest you order a minimum 5% extra allowance and schedule delivery to the site at least two weeks prior to laying the floor. Flooring should be laid as per install guidelines of the National Wood Flooring Manufacturers Association (NOFMA).
